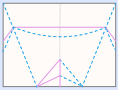
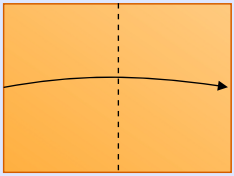
Canopy, curved (***, 5 minutes)

Design & diagramme: Hans Dybkjær. *Copyright 2020*
Papir: A4 (210 x 297 mm) Model: 23 x 18 cm

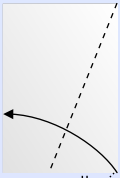
Start with front-page up.

Folding pattern
Try to avoid the grey lines when folding.



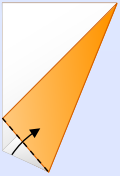


1 Fold over.



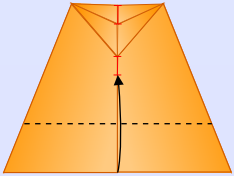
2 Fold the corner to the folding edge
Repeat on the back

3 Fold up to the edge

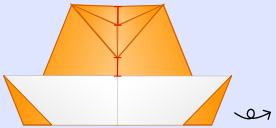


4 Fold over the edge

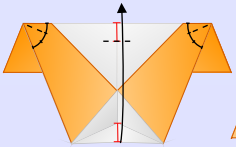
5 The lock is ready
Fold out and turn



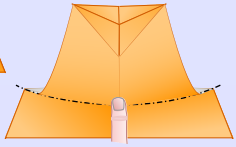
6 Fold up the edge
The two red lines have the same distance



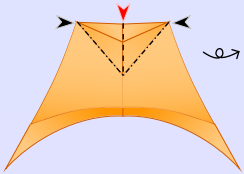
7 Turn



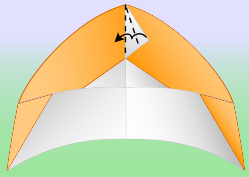
8 Mark 1/3 angle of the corners in top layer.
Fold up, only in the middle.



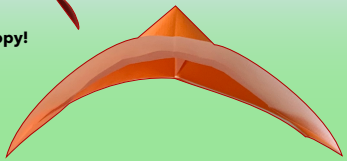
9 Lift the model up.
Finish and shape the fold in a curve to each corner.
The two corners curve downwards.



10 Press down the red middle and bring the two sides together so that the triangle pops down.
Turn.



11 Close the lock by folding over and over.
Turn and set it up.

12 Canopy!


The red distances in step 6 and 8 defines the steepness of the curve.
